Hand Pumps In Tharparkar- a Completion Report
Gifted by: Mr. Noor Ahmed Menai

Introduction:

Hisaar Foundation (HF) - a Foundation for Water, Food and Livelihood Security is a not for profit organization established in 2003. The Foundation provides a platform for identifying solutions relevant to the water-food-livelihood nexus, and implementing them through local, national, regional and international partnerships and cooperation.

Hisaar Foundation is committed to building the lives and resilience of the vulnerable communities in the drought-prone areas of Tharparkar, by focusing on installing deep dugwells, hand pumps and water storage tanks and initiating low cost solutions that contribute to the general improvement of the people residing in the drought-prone areas. Hisaar Foundation believes that providing water and food security is essential to the upliftment of the vulnerable communities in Tharparkar.

Project Location and Description

The Hand Pump has been installed at **Village Jummo Paro situated within Union Council Bhakuo.**

The Hamlet where the Hand Pump has been installed is of poor but diverse community (Bheel, Khyber).

#	Description	Unit/Value
1	Distance: To Taluka HQ, Mithi	25 km
2	Total Beneficial Households	25
3	Total Beneficial Population	175
4	Depth of Hand Pump	80 Feet
5	Tubewell	0
6	Electricity	yes
7	Distance to Nearest Metaled Road	N/A
8	Livestock	100

The Project started in October 2017 and completed in November 2017.

Scope of Work

- Installation of Hand pump
- PVC piping and fitting
- Plaque in appreciation of donors

Project Benefits

- Women who are mainly responsible for collection of water for domestic use now have extra time, which they can effectively use on productive activities.
- The project location identification and management has been done by the community, therefore the ownership will be established.
- The location allows the community for future expansion of the area.
